(Education, Agriculture, Travel, Computer, Commerce)

[Turn over

- B. Read the following passage and answer in your own words the questions given below :

5 × 2 = 10

Many people are unsuccessful because of their subconscious mind. Human brain is like a powerful computer. Everything starts from our brain. Whatever you have been learning since your birth is stored in your brain. There are two types of thinking — positive and negative. The positive thinking is optimistic which helps you in achieving success while negative thinking is pessimistic which causes failures. All the above things are considered as programming. Thus to be a successful person, you have to change your mental programming. You will achieve success after diluting the negative programming from your brain. Brain is a machine of thoughts which never stops and hence carries out activities continuously. You have to leave your negative thinking which is a hindrance for your progress. Anger, tension and hatred are negative things. You must avoid all these as they lead us in the direction of failure. The positive things are faith, love, honour, praise and to achieve high dream. Say I can do ! I will do ! Whatever commands you give your brains, it will do the same.

Questions :

44. What are the two types of thinking ?
45. What is said about the brain ?
46. Mention some of the positive things that one should follow.
47. What should be done to be a successful person ?
48. What is the hindrance for one's progress ?

SECTION - D
