

PLEASE ENSURE THAT THIS BOOKLET CONTAINS 150 QUESTIONS  
SERIALLY NUMBERED FROM 1 TO 150 (Printed Pages : 32)

1. The closure of neural tube occurs in which week of intra-uterine life?

- (A) Before 3rd week
- (B) Before 4th week
- (C) Before 5th week
- (D) Before 6th week ✓

2. Which of the following artery is present in the cisterna magna?

- (A) Basilar artery
- (B) Post inferior cerebellar artery
- (C) Middle cerebellar artery
- (D) Superior cerebellar artery

3. Fourth thoracic spine corresponds to which thoracic spinal segment?

- (A) 4th
- (B) 5th
- (C) 6th
- (D) 7th

4. The derivation of mesonephric duct in female forms:

- (A) Ovarian ligament
- (B) Round ligament of uterus
- (C) Gartner's duct
- (D) Fallopian tube

5. Vincula longa and brevia are present in:

- (A) Intestines
- (B) Joints
- (C) Meninges
- (D) Phalanges

6. Injury to ulnar nerve causes:
- (A) Loss of hypothenar eminence
  - (B) Loss of thenar eminence
  - (C) Loss of pronation of forearm
  - (D) Loss of sensations
7. Which of the following contractions are not seen in the colon?
- (A) Segmental
  - (B) Peristaltic
  - (C) Mass action
  - (D) Eccentric
8. Digestion of carbohydrates is maximum in:
- (A) Stomach
  - (B) Duodenum
  - (C) Jejunum and proximal ileum
  - (D) Distal ileum
9. Average weight gain during entire pregnancy is:
- (A) 5 - 7.5 kg
  - (B) 7.5 - 10 kg
  - (C) 10 - 12.5 kg
  - (D) 12.5 - 15 kg
10. The term "Synapse" was first introduced by:
- (A) Sherrington
  - (B) Bell-Magendie
  - (C) Starling
  - (D) Mulla
11. Normal A/G ratio in blood is:
- (A) 1 : 7.1
  - (B) 7.1 : 1
  - (C) 1 : 1.7
  - (D) 1.7 : 1

12. 13. 14. 15. 16.

12. In microcytic hypochromic anemia:
- (A) MCH is normal
  - (B) MCHC is increased
  - (C) MCV is decreased
  - (D) MCHC is normal
13. Which of the following is the main transport form of cholesterol from peripheral tissues to liver?
- (A) HDL
  - (B) LDL
  - (C) VLDL
  - (D) Chylomicrons
14. Which of the following is an essential amino acid?
- (A) Phenylalanine
  - (B) Glycine
  - (C) Proline
  - (D) Asparagine
15. Excess intake of raw eggs can block the absorption of which of the following vitamin from intestine?
- (A) Vitamin B<sub>12</sub>
  - (B) Biotin
  - (C) Thiamine
  - (D) Folic acid
16. The glycosidic bond present at the branch points in the structure of starch are:
- (A)  $\beta(1-4)$  glycosidic linkage
  - (B)  $\alpha(1-4)$  glycosidic linkage
  - (C)  $\alpha(1-6)$  glycosidic linkage
  - (D)  $\beta(1-6)$  glycosidic linkage

SEAL

17. Which of the following is the most important enzyme involved in the oxidative deamination of glutamate to liberate free ammonia?
- (A) Glutamate transaminase ✗  
 (B) Glutamate dehydratase ✗  
 (C) Arginosuccinate synthase ✗  
 (D) Glutamate dehydrogenase ✓
18. Which of the following is the test that is employed to check the relative unsaturation of fats in sample?
- (A) Iodine number ✓  
 (B) Saponification number ✗  
 (C) Acid number ✗  
 (D) Reichert-Meissl (RM) number ✗
19. One gram of sugar of milk is soluble in:
- (A) 0.5 ml of boiling water ✗  
 (B) 0.6 ml of boiling water ✗  
 (C) 2.6 ml of boiling water ✓  
 (D) 1 ml of boiling water ✗
20. Labelling and packaging of Homoeopathic drugs is mentioned in which of the following part of Drugs and Cosmetic Act?
- (A) Part VI A ✗  
 (B) Part VIII A ✗  
 (C) Part XII ✗  
 (D) Part IX A ✓
21. Who besides Dr. Hahnemann saw necessity of proving drugs on human beings?
- (A) Cullen ✗  
 (B) Albrecht Von Haller ✓  
 (C) J. T. Kent ✗  
 (D) Hufeland ✗

22. Exotic vegetable substances must be prepared:
- (A) In the form of powder
  - (B) In the form of freshly expressed juice
  - (C) Dissolved in water just before taking
  - (D) By pouring warm water on it
23. Murex purpurea is prepared from:
- (A) Jelly fish ✓
  - (B) Cuttle fish *sep.*
  - (C) Purple fish
  - (D) Star fish \*
24. A Homoeopathic drug, "Talpa Europea" belongs to which of the following kingdom?
- (A) Isodes
  - ?  (B) Animals ↑
  - (C) Plants
  - (D) Allersodes
25. Aconite exhibits florescence analysis of:
- (A) Brown colour
  - (B) Greenish blue colour
  - (C) Golden colour
  - (D) Yellow colour
26. Psorinum belongs to which of the following group?
- (A) N I
  - (B) N II
  - (C) ~~N III~~
  - (D) N IV
27. Benzopyrene is associated with:
- (A) Acute leukemia
  - (B) Bladder cancer ✓
  - (C) Liver cancer
  - (D) Scrotal cancer

28. Painless hematuria is seen in:
- (A) Schistosoma hematobium
  - (B) Schistosoma mansoni
  - (C) Schistosoma japonicum
  - (D) Paragonium westermani
29. 'AE type amyloid' is seen in:
- (A) Medullary carcinoma thyroid
  - (B) Primary amyloidosis
  - (C) Multiple myeloma
  - (D) Familial amyloidosis
30. "Hair on end" appearance is seen in:
- (A) Flourosis
  - (B) Thalassemia  $\uparrow$
  - (C) Osteosarcoma
  - (D) Pathological fracture  $\uparrow$
31. Oedema is caused by:
- (A) Decreased interstitial fluid pressure
  - (B) Increased interstitial fluid pressure
  - (C) Increase osmotic pressure of blood
  - (D) Increase hydrostatic pressure of blood
32. The earliest immunoglobulin to be synthesized by the fetus is:
- (A) IgG  $\uparrow$
  - (B) IgE  $\uparrow$
  - (C) IgM
  - (D) IgA
33. Bacteriophages are:
- (A) Bacterial vacuoles
  - (B) Viruses  $\checkmark$
  - (C) Modified macrophages
  - (D) Bacterial DNA

34. The virulence factor of *Neisseria gonorrhoeae* includes all of the following except:
- (A) Outer membrane proteins
  - (B) IgA protease
  - (C) M proteins
  - (D) Pilli
35. Which of the following is not a type III sensitivity reaction?
- (A) Tuberculosis
  - (B) Serum sickness reaction
  - (C) Glomerulonephritis
  - (D) Arthus reaction
36. CLED is preferred to McConkeys medium in UTI because:
- (A) It is a differential medium
  - (B) Prevents swarming of proteus
  - (C) Supports the growth of pseudomonas
  - (D) Supports growth of candida and staphylococcus
37. Liability for negligent act of another is known as:
- (A) Contributory negligence
  - (B) Ethical negligence
  - (C) Borrowed servant doctrine
  - (D) Vicarious responsibility
38. Which of the following contain "Davidson bodies"?
- (A) RBC
  - (B) Polymorph
  - (C) Platelet
  - (D) Lymphocyte
39. Blood group system used for racial differentiation from blood stain is:
- (A) Duffy
  - (B) Kell
  - (C) Rhesus
  - (D) MNS

40. Bruise behind ear is indicative of:
- (A) Fracture of anterior cranial fossa floor\*
  - (B) Basal fracture
  - (C) Direct blow on ear
  - (D) Jaw fracture \*
41. Dermal nitrate test is done in:
- (A) Bullet injury
  - (B) Rape
  - (C) Finger print identification
  - (D) Ante mortem burns ✓
42. Non compliance of homicidal poisoning is punishable under which of the following:
- (A) 176
  - (B) 177
  - (C) 201
  - (D) 202
43. Which of the following is highly poisonous to cobra and other poisonous snakes?
- (A) Aconite
  - (B) Hellebores Niger
  - (C) Capoltropis Procera ✓
  - (D) Calotropis Gignatea
44. Which of the following live vaccine can be given to pregnant women during outbreaks when the risk of infection is high?
- (A) Measles\*
  - (B) Rabies \*
  - (C) Yellow fever
  - (D) Rubella .
45. Target disease areas for VISION 2020 in the world:
- (A) Trachoma ?
  - (B) Cataract ..
  - (C) Refractive error .
  - (D) Glaucoma .

36

46. Which of the following is the best index of air pollution?  
 (A) Carbon monoxide  
 (B) Sulphur dioxide  
 (C) Carbon dioxide  
 (D) Nitrogen oxide
47. The most common occupational cancer in India is:  
 (A) Skin  
 (B) Lung  
 (C) Urinary bladder  
 (D) Leukaemia
48. All are true about DALYs except:  
 (A) Is best measure of burden of disease  
 (B) Can measure both mortality and disability together  
 (C) Expressed as number of years lost due to ill health  
 (D) Measure only disability
49. Prevalence is calculated from:  
 (A) Case control study  
 (B) Cross sectional study  
 (C) Cohort study  
 (D) Randomized control study
50. Median weight of 100 children was 16 kgs. The standard deviation was 8. What is the percentage coefficient of variance?  
 (A) 25%  
 (B) 35%  
 (C) 50%  
 (D) 55%

9  
16

51. Which of the following medicines has a symptom, "Dyspnoea, must lie on right side or with head high"?
- (A) Naja  
 (B) Spigelia  
 (C) Kali carb  
 (D) Digitalis
52. "Vomiting violent; with cold sweat; soon as she begins to move during pregnancy" is characteristic of:
- (A) Ars alb  
 (B) Verat alb  
 (C) Tabacum  
 (D) Bismuth
53. Dry, scaly, itching, rhagades of hands and feet in cold weather and from washing is characteristic of:
- (A) Sarsaparilla  
 (B) Malandrinum  
 (C) Sulphur  
 (D) Phosphorus
54. Which remedy acts well after Nux vomica in fainting after a meal?
- (A) Cinchona  
 (B) Crot. tig  
 (C) Ignatia  
 (D) Phosphoric acid
55. Medicines for "violent burning and drawing pains in kidney, bladder and urethra":
- (A) Berb. vulgaris, Apis mel and Cantharis  
 (B) Berb. vulgaris, Terebinthina and Can sativa  
 (C) Lycopodium, Nitric acid and Berb. vulgaris  
 (D) Lycopodium, Berb. vulgaris and Pyrogenium

56. "Violent stitches in upper left chest below the scapula, extending to neck" is characteristic of:
- (A) Theridion and Stannum met
  - (B) Crataegus and Stannum met
  - (C) Theridion and Sulphur
  - (D) Bryonia and Crataegus
57. Which of the following medicine is useful before or after Psorinum, Sulphur and Tuberculinum?
- (A) Calc carb
  - (B) Lycopodium
  - (C) Baryta carb.
  - (D) Medorrhinum
58. Which of the following medicine is used when Rhus tox seems indicated but fails to cure, in chronic urticaria?
- (A) Dulcamara
  - (B) Urtica urens
  - (C) Bovista
  - (D) Nitric acid
59. Which is not a symptom of Anacardium?
- (A) Irresistible drive to curse and swear
  - (B) Headache relieved entirely when eating
  - (C) Warts on palms of hands
  - (D) After business embarrassments unable to sleep, must get up
60. The medicine for acute affections of prostate after maltreated stricture is:
- (A) Merc bin iodide
  - (B) Merc cynatus
  - (C) Merc proto iodide
  - (D) Merc dulcis

61. Match list I with list II and select the correct answer using the code given below:

List I : Symptom

List II : Medicine

- |   |  |   |                          |
|---|--|---|--------------------------|
| a | Asthma, better by lying on face and protruding tongue  | 1 | Hepar sulph <sup>b</sup> |
| b | Asthma, better from sitting up with head bent backward | 2 | Kali carb <sup>d</sup>   |
| c | Asthma better in damp weather                          | 3 | Medorrhinum <sup>a</sup> |
| d | Asthma better from bending forward, rocking            | 4 | Causticum <sup>c</sup>   |

(A) a-3, b-2, c-1, d-4

(B) a-3, b-1, c-2, d-4

(C) a-3, b-4, c-1, d-2

(D) a-3, b-1, c-4, d-2

62. Which remedy has cured colic after Colocynth and Nux vomica had failed?

(A) Collinsonia canadensis

(B) Aloes soc

(C) Digitalis purp

(D) Chamomilla

63. "Headache of school girls from eye strain or over use of eyes", is a symptom of:

(A) Nat mur, Ruta, Bryonia <sup>+</sup>

(B) Calc phos, Nat mur, Phosphoric acid <sup>✓</sup>

(C) Onosmodium, Nat mur, Ignatia <sup>✓</sup>

(D) Theridion, Belladonna, Coca <sup>↑</sup>

64. Which remedy will raise the opsoic index against the diplococcus pneumonia, 70 to 109 percent?

(A) Veratrum viride <sup>✓</sup>

(B) Bryonia

(C) Gelsemium

(D) Pyrogenium/

65. Match list I with list II and select the correct answer using the code given below the list:

List I : Remedy

List II : Complements

- |   |             |   |             |
|---|-------------|---|-------------|
| a | Baryta carb | 1 | Hepar sulph |
| b | Calendula   | 2 | Baryta mur  |
| c | Chamomilla  | 3 | Dulcamara   |
| d | Conium      | 4 | Belladonna  |

- (A) a-3, b-1, c-4, d-2  
(B) a-3, b-1, c-2, d-4  
(C) a-3, b-4, c-1, d-2  
(D) a-1, b-3, c-4, d-2

66. Match list I with list II and select the correct answer using the code given below the list:

List I : Things that disagrees

List II : Remedy

- |   |            |   |            |
|---|------------|---|------------|
| a | Onion      | 1 | Nux vomica |
| b | Salty food | 2 | Bromium    |
| c | Coffee     | 3 | Zincum met |
| d | Wine       | 4 | Carbo veg  |

- (A) a-2, b-4, c-1, d-3  
(B) a-2, b-1, c-3, d-4  
(C) a-2, b-4, c-3, d-1  
(D) a-2, b-3, c-4, d-1

67. "Mammae painful, as if they would ulcerate at every menstrual period" is characteristic feature of:

- (A) Hepar sulph., Conium and Bryonia  
(B) Mercurius, Conium and Lac can  
(C) Hep sulph, Mercurius and Apis  
(D) Lac can, Graphites and Apis

68. Which of the following medicine is used for 'Daily colic in infants about 5 AM'?

- (A) Gelsemium  
(B) Ipecac  
(C) Aethusa cynapium  
(D) Kali brom

69. Medicine for "Soreness behind ears with discharge of white gray, viscid fluid":
- (A) Graphites, Pulsatilla and Chamomilla
  - (B) Graphites, Psorinum and Sanicula
  - (C) Psorinum, Mag mur and Thuja
  - (D) Graphites, Thuja and Nat mur
70. 'Children: Fear of falling, grasp the crib or seize the nurse' is a feature of:
- (A) Borax, Sanicula and Gelsemium
  - (B) Borax, Sanicula and Silicea
  - (C) Sanicula, Rheum and Gelsemium
  - (D) Arg nit, Rheum and Borax
71. Which of the following medicine has symptom 'Rheumatism affecting bellies of the muscles, pain, stitching cramping'?
- (A) Causticum
  - (B) Colchicum
  - (C) Colocynth
  - (D) Actea racemosa
72. Which of the following medicine has a feature of, 'Nostrils and labial commissures sore, cracked and crusty'?
- (A) Antim crudum
  - (B) Condurango
  - (C) Sticta pulmonaria
  - (D) Graphites
73. Which of the following medicine has a symptom of, 'Headache returning every winter alternating with or attended by gastralgia' ?
- (A) Arg nitricum
  - (B) Cedron
  - (C) Bismuth
  - (D) Abies nigra

74. Which is the medicine for 'Diabetes especially in children' ?
- (A) Antim tart
  - (B) Tuberculinum
  - (C) Crataegus
  - (D) Naja
75. Suggest the medicine for 'Dyspnoea in middle of night, relieved by sitting up':
- (A) Calc carb
  - (B) Sulphur
  - (C) Sepia
  - (D) Naja
76. Which medicine should never be given in syphilis, always aggravates the condition:
- (A) Carcinosis
  - (B) Medorrhinum
  - (C) Ferrum met
  - (D) Alumina
77. Which of the following medicine has a symptom of 'Unconscious, stupid, answer slowly when questioned, a picture of acute idiocy' ?
- (A) Helleborus niger
  - (B) Baptisia
  - (C) Apis mel
  - (D) Sulphur
78. Which medicine 'Cures the muscular weakness following excessive use of opium and tobacco'?
- (A) Phosphoric acid
  - (B) Muriatic acid
  - (C) Verat alb.
  - (D) Zincum met

79. Name the medicine for 'Shortness of breath, in old people, in those who use tobacco and whisky in excess':
- (A) Coca
  - (B) Tabacum
  - (C) Sulphuric acid
  - (D) Medorrhinum
80. Which medicine has cured umbilical hernia with obstinate constipation after Nux vomica has failed?
- (A) Bryonia
  - (B) Opium
  - (C) Cocculus indicus
  - (D) Ignatia
81. A patient of chronic gastritis reports slight improvement in his epigastric pain but develops disturbed sleep and undue weakness after administration of homoeopathic medicine. The next plan of treatment should be:
- (A) Wait and watch approach
  - (B) Complementary medicine
  - (C) Antidotal medicine
  - (D) Cognate
82. Transient alleviation of psychological symptoms with emergence of corporeal disease in so-called mental and emotional disease occurs during:
- (A) Onset of acute mental disease
  - (B) Lucid interval
  - (C) Tautopathic treatment
  - (D) Secondary counter action
83. Profound stupefied sleep caused by opium is an example of its:
- (A) Primary action
  - (B) Secondary counter action
  - (C) Idiopathic action
  - (D) Paradoxical action

84. In 4th edition of Organon of Medicine, Hahnemann limited the potency of indicated medicine to:
- (A) 6C  
 (B) 12C  
 ✓(C) 30C ?  
 (D) 200C
85. A patient of transitional cell carcinoma of urinary bladder with multiple skeletal metastasis was prescribed the most appropriate remedy, Sulphur in CM potency. Which of the following Kent's observation is most likely to be observed in such a case:
- ✓(A) First  
 ✗(B) Fourth  
 ✗(C) Ninth  
 ✗(D) Eleventh
86. The scope of applicability of law of similia is best described by:
- ✓(A) Theory of acute miasm  
 (B) Brousseau's method of treatment  
 ✗(C) Cartesian dualism  
 ✗(D) Dake's method of exclusion
87. Which of the following is an essential pre-requisite for human drug proving?
- ✓(A) Proving on both sexes  
 (B) Proving on all ethnic races  
 (C) Administration of drug in material doses ✗  
 (D) Proving on sick ✗
88. Evolution of the concept of chronic miasm was based on:
- (A) Prospective case study  
 ✗(B) Retrospective case study  
 (C) Randomized case study  
 (D) Double blind case study

89. Prescription of Arnica montana for chronic effects following severe injury is an example of:
- (A) Palaeopathy †
  - (B) Anthropology ✓
  - (C) Aetiopathism ✓
  - (D) Isopathy +
90. The originator of high potency was:
- (A) Hering .
  - (B) Swan ?
  - (C) Richard Hughes
  - (D) Korsakoff .
91. A patient complaining of pain in right hip joint with each paroxysm of cough is exhibiting:
- (A) H.A. Robert's Auxiliary symptom ✓
  - (B) Garthe Boericke's Basic symptom +
  - (C) Hahnemann's General symptom +
  - (D) Kent's Common symptom +
92. Hairfall after an attack of typhoid is best described in Boenninghausen's symptomatology of:
- <sup>seat</sup> (A) Ubi
  - <sup>cause</sup> (B) Cur ✓
  - <sup>time</sup> (C) Quando ✓
  - (D) Quibus auxiliis
93. Occupational history of patient is an example of:
- (A) Accessory circumstances ✓
  - (B) Accessory miasm +
  - (C) Half acute miasm
  - (D) Prima causa morbid ✓

94. Frostbite occurs due to:
- (A) Secondary counter action ✓  
 (B) Idiosyncrasy ✓  
 (C) Isopathy ✓  
 (D) Iatrogenesis
95. Prescription of *Ceanothus americanus* in spleen disorders is predominantly:
- (A) Isopathic ✓  
 (B) Organopathic ✓  
 (C) Tautopathic ✓  
 (D) Nosodo therapy ✓
96. The *modus operandi* of homoeopathic cure is explained in:
- (A)  $\delta 29$  ✓  
 (B)  $\delta 77$   
 (C)  $\delta 153$   
 (D)  $\delta 235$
97. Match the following:
- |     |               |   |                      |
|-----|---------------|---|----------------------|
| I   | Boger         | a | Inductive logic      |
| II  | Pettenkoefer  | b | Pathological general |
| III | Francis Bacon | c | Cholera experiment   |
- (A) I-c, II-a, III-b  
 (B) I-a, II-c, III-b  
 (C) I-a, II-b, III-c  
 (D) I-b, II-c, III-a
98. Who amongst the following belonged to pathological school of Homoeopathic prescribing?
- (A) Jenichen  
 (B) Boenninghausen  
 (C) Staph  
 (D) Richard Hughes

99. Concept of 'Memory of water' was elucidated by:
- (A) H. Boyd
  - (B) P. Schmidt
  - (C) Beneviste
  - (D) Charles Pahud
100. Growing pain of children at night and in change of weather indicates which of the following miasm?
- (A) Pseudo psora
  - (B) Syphilis
  - (C) Sycosis
  - (D) Psora
101. Patient's account of the illness and their health history is termed as:
- (A) Idiosyncrasy
  - (B) Surrogate
  - (C) Anamnesis
  - (D) Derivations
102. The first step in the evolution of Homoeopathic therapeutics was:
- (A) Human drug proving
  - (B) Potentisation
  - (C) Drug dilution
  - (D) Animal experimentation
103. Progression of a case of atopic dermatitis to asthma is described as:
- (A) Regressive vicariation
  - (B) Progressive vicariation
  - (C) Homoeopathic aggravation
  - (D) Vis medicatrix natura
104. Phenomenological view point is based on the following concept:
- (A) Mechanistic
  - (B) Reductionist
  - (C) Holistic
  - (D) Cartesian dualism

105. Coldness with aversion to being covered is an example of:
- (A) Absolute symptom  
 (B) Negative general symptom.  
 (C) Common symptom  
 (D) Theoretic symptom
106. Restriction of intake of red meat in diet of a patient suffering from gouty arthritis exemplifies removal of:
- (A) Totality of symptom  
 (B) Portrait of disease  
 (C) Fundamental cause  
 (D) Causa occasionalis
107. Brevilinear constitution refers to:
- (A) Hydrogenoid constitution  
 (B) Carbonic constitution  
 (C) Fluoric constitution  
 (D) Phosphoric constitution
108. The greater number of new symptoms appearing after administration of medicine indicates:
- (A) Wrong selection of medicine  
 (B) Homoeopathic cure  
 (C) Alternating action  
 (D) Disease aggravation
109. Match the following:
- |   |                 |   |                       |
|---|-----------------|---|-----------------------|
| 1 | Anton Stoerck   | a | Concordances          |
| 2 | Boenninghausen  | b | Epidemic constitution |
| 3 | Thomas Sydenham | c | Human drug proving    |
- (A) 1-a, 2-b, 3-c  
 (B) 1-b, 2-c, 3-a  
 (C) 1-c, 2-a, 3-b  
 (D) 1-c, 2-b, 3-a

110. Quinquaginta millesimal potency refers to:
- (A) Mother tinctures
  - (B) Straight potency
  - (C) Fifty millesimal potency
  - (D) Decimal potency
111. Concept of nosode prophylaxis was first propagated by:
- (A) Hahnemann
  - (B) C. Hering
  - (C) J. T. Kent
  - (D) M. L. Tyler
112. Concept of mesmerism was introduced in which edition of Organon of Medicine?
- (A) 2nd
  - (B) 3rd
  - (C) 5th
  - (D) 6th
