SECTION -A (UNSEEN PASSAGE)

Read the following passage and answer the questions given below:

5

Penguins are a group of aquatic, flightless birds living mostly in Antarctica. Penguins have dark and white feathers. They have flippers for movement in water. Most penguins feed on fish, squid and other forms of sealife caught while swimming underwater. They spend half of their life on land and half in the oceans. Emperor penguins are the largest living species and the blue or fairy penguins are the smallest species. Most of the penguin species live in large colonies. Penguins are not afraid of human beings. This is probably because penguins have no land enemy in Antarctica. Instead, they are at a risk in sea from sharks or leopard seal. In 1986, Silvio Mazzola, created a famous penguin cartoon character named 'Pingu'.

The Earth with its great green trees
Its infinite life and boundless beauty
The only earth there'll ever be
These waters of deep springs of rivers and lakes
Drops of dew and clouds above
All the water there has ever been.

The air around that everyone breathes
Over and over, forever and ever
Love this earth
Love it as much as life itself
Earth from which all life has come
Earth to which all life returns
Love its waters and keep them clean
Water on which all life depends
Love clear air
Care enough to keep it clear
Clear enough to see the stars
And earth will remain beyond time
