Note : Answer all the questions.

1. Fill in the blanks with the correct symbol/word(s) by selecting from the choices given in the brackets : 10 × 1 = 10
- i) Symbolic representation of a program is
(*algorithm, code, flowchart*)
- ii) A group of 8 bits is called
(*byte, nibble, word*)
- iii) Processing box in a flowchart is indicated by
(*rhombus, rectangle, capsule*)
- iv) An identifier used to identify a statement is
(*label, constant, variable*)
- v) The scanf is formatted
(*output function, input function, I/O function*)
- vi) An escape character used for line feed is
(*\n, \t, \f*)
- vii) A smallest meaningful unit of C program is called
(*data types, integer, token*)
- viii) The default storage class is
(*static, auto, register*)
- ix) A brief idea of the nature of program is given by
(*documentation section, function, declaration*)
- x) An expression that output numeric value is termed as
(*relational expression, logical expression, arithmetic expression*)
2. a) What is a computer ? 2
- b) List the advantages of computer. 4
- c) Draw a neat block diagram of computer. 4

3. a) Define programming. 2
b) Write the flowchart symbols of the following : 4
 i) Input / Output
 ii) Flow lines
 iii) Decision box
 iv) Connector.
- c) Write algorithm and flowchart to add two numbers. 4
4. a) Who found the 'C' language and what is the use of COBOL ? 2
b) Give any four applications of C language. 4
c) What are the advantages of C language ? 4
5. a) Define identifier. Identify whether the given identifier names are valid or invalid : 5
 i) Total marks
 ii) 10th Std.
 iii) Sname.
- b) Write a program to read marks and print the total. 5
6. a) What is an operator ? Mention its any three types. 5
b) Write a program to find the number of days in February, 2017. 5
7. a) When we use control statement ? What is the use of *if ... else* statement ? 5
b) Write a program to find the students' result by using if statement, when the maximum marks is 600. 5
8. a) Define function and give two examples. 4
b) Write a program to calculate compound interest. 6
9. a) Write short notes on any *two* of the following : 5
 i) Modem
 ii) E-mail
 iii) Variable.
- b) Write a program to find whether the given number is even or odd. 5
