

HSE II Subject : Computer Applications (Commerce) Code No : 2052

Scoring Key and Evaluation Scheme

Qn.No	Scoring Indicators	Split Score	Total Score
1	do-while	1	1
2	Correct Explanation	1	3
	Example/Syntax	2	
3	Transfer control to anywhere in the program	1	2
	Syntax : goto label;	1	
4. a	Character array declaration / inputting string	1	5
	Correct loop statement	1	
	Checking for Null character ('\0')	1	
	Incrementing the counting variable	1	
	Display the length	1	
	OR		
4. b	Correct declaration of integer array	1	5 (OR)
	Correct loop statement for inputting array elements	1	
	Comparing the array elements to find the largest	2	
	Display the largest number	1	
5. a	Array – collection of elements of same type	1	2
	Example / syntax	1	
	OR		
5. b	Computer	1	2 (OR)
	Using cin, the characters upto the white space is read	1	
6	Isalnum()	1	1
7	Any three string functions – listing (strlen, strcpy, strcat, strcmp, strcmpi)	1 ½	3
	Explanation / Example	1 ½	
8	Function definition – float average (float a, float b, float c)	1 ½	3
	Program to accept to data and call this function	1 ½	
9	<small> or <sub> or <sup>	1	1
10	Any two comparisons	1 + 1	2
11	<body background = "sky.jpg">	1	1
12	Noresize	1	1
13	Correct use of OL tag	1 ½	3
	Example	1 ½	
14	Html code for web page using <form>	1	3
	Correct code for validation of mark	1	
	Correct code for validation of empty data	1	

15	Shared hosting – most common type, share resources, suitable for small web site, not good for website that requires high bandwidth, cheaper, easy to use, slow – (any three points)	1 ½	3
	VPS – a physical server is virtually partitioned into several servers, provide dedicated amount of RAM for each virtual server, the users have right to install software, dedicated bandwidth, suitable for website that require more features than shared hosting but less features than dedicated hosting – (any three points)	1 ½	
16	CMS	1	1
17	SFTP encrypts username, passwords and data / (Secured File Transfer Protocol)	1	2
	Use SSH protocol which facilitate secure file transfer	1	
18	Hardware, software, data, users and procedures – listing	1	5
	Explanation	4	
19	Degree	1	1
20	Having	1	1
21	View – virtual table derived from one or more tables	1	2
	CREATE VIEW command	1	
22. a	Explain insert, delete commands (Commands only – 1 mark each)	1 ½ + 1 ½	3
	OR		
22. b	Explain any two DDL commands (create, alter, drop) (Commands only – 1 mark each)	1 ½ + 1 ½	3 (OR)
23	Benefits of ERP – improved resource utilization, customer satisfaction, accurate information, decision making capability, increased flexibility, information integrity - (any three points)	1 + 1 + 1	3
24	Decision Support System	1	1
25	CDMA	1	1
26	GPS – satellite based navigation system used to locate a geographical position anywhere on the earth	1	2
	Satellites send radio signals, which are monitored and corrected by control stations, picked up by GPS receivers	1	
27	Subscriber Identity Module	1	1
28	Cyber crime – a criminal activity in which computers or computer network is used as a tool, target or place of	1	3
	Cyber crimes against individual (identity theft, harassment, impersonation, violation of privacy, dissemination of obscene material) – Any two points	1 + 1
