1 - 5. Read the extract from the story, 'The Snake and the Mirror' and answer the questions that follow:

(5 × 1 = 5)

It was a hot summer night about ten o' clock. I had my meal at the restaurant and returned to my room. I heard a noise from above as I opened the door. The sound was a familiar one. One could say that rats and I shared the room. I took out my box of matches and lighted the kerosene lamp on the table.

The house was not electrified; it was a small rented room. I had just set up medical practice and my earnings were meagre. I had about sixty rupees in my suitcase. Along with some shirts and dhotis, I also possessed one solitary black coat which I was then wearing.

1. What idea do you get about the time and weather from the passage?
2. What familiar sound did the doctor hear when he opened the door?
3. Identify the sentence which tells you about the doctor's financial status.
4. Why is it said that the doctor shared the room with rats?
5. 'I had just set up medical practice'. Begin the sentence with 'medical practice'.

6-9. Read the following lines from the poem 'Mother to Son' and answer the questions that follow:

(4 × 1 = 4)

Well, son, I'll tell you:
Life for me ain't been no crystal stair.
It's had tacks in it,
And splinters,
And boards torn up,
And places with no carpet on the floor—
Bare.
But all the time
I'se been a-climbin' on,
And reachin' landin's,
And turnin' corners,
And sometimes goin' in the dark
Where there ain't been no light.

6. What does the mother try to tell her son?
7. 'Life for me ain't been no crystal stair.' Comment on the expression 'no crystal stair'.
8. Pick out the expressions which tell us that life was not easy for the mother.
9. What does 'turnin' corners' signify?
10. **Read the following lines from the poem 'Girl's Garden' and prepare a note of appreciation focussing on its theme, images and poetic devices. (1 × 5 = 5)**

She wheeled the dung in a wheelbarrow

Along a stretch of road;

But she always run away and left

Her not-nice load,

And hid from anyone passing

And then she begged the seed.

She says she thinks she planted one

Of all things but weed.

A hill each of potatoes,

Radishes, lettuce, peas,

Tomatoes, beets, beans, pumpkins, corn,

And even fruit trees.

11-15. Read the passage given below and answer the questions that follow.

(5 × 1 = 5)

CLOCKS

The clock is a very old invention. Sundials were used in ancient times. Sundials work by measuring shadows that are cast by the sun. Candle clocks were used a very long time ago. Candle clocks work by measuring the time it takes for the wax to melt. Hourglasses are similar to candle clocks because they also measure the time it takes for something to happen. Hourglasses work by measuring the time it takes for sand to pour through a small opening into a glass. Mechanical clocks appeared in the 13th century in Europe. They work with a system of moving gears. The gears always move at the same speed. Pendulum clocks work with a swinging weight. The swinging weight is called pendulum. The pendulum makes the clock parts move. Now people typically use mechanical clocks or digital clocks. Digital clocks show numbers on a screen. The numbers represent the time. Some people use auditory clocks. Auditory clocks use language to tell the time aloud. Computers also use clocks. Computers use internal clocks in order to work properly. In today's world, clocks are everywhere - in homes, schools, offices, and public places. Many people live their lives according to the clock. People go to work and return home according to the clock. School days start and end according to the clock. Airplanes take off and land according to the clock. It is fun to imagine a world without clocks!

11. What were the different types of clocks used in ancient times?
12. How does the candle clock work?
13. What is the advantage of a mechanical clock?
14. What kind of clock would you suggest for a blind person?
15. Why does the author say that it is fun to imagine a world without clocks?
