Assignment

1. How did industrial revolution cause colonisation?
Prepare a flow chart.

Ans)

2. How does imperialism differ from colonization?
Prepare a short note.

Ans) Colonization :- colonization is the practice of establishing territorial domination over a colony by another colonial master country.

Imperialism :- * Imposing a nation's political, economic and cultural dominance on another nation is imperialism.

3. How did imperialism affect the colonies ?

Ans) * Economic system was destroyed .

* Administrative and Judiciary system was destroyed.

* cultivation of cash crops instead of food crops .

* Poverty and unemployment .

* Natural resources were exploited .

* Education system was destroyed .

4. How did industrial revolution cause conflicts among the nations ?

Ans) Industrial Revolution resulted in the increase of capital and that was to be invested in ~~foreign~~ foreign trades. These resulted in financial exploitation and competition among the nations and as a result the strong and powerful ones began to divide Africa. This competition for the markets, raw materials and the colonies went on in the last phase of 19th and in the 20th century. All the imperialist nations too joined in this competition that resulted in the outbreak of wars.
