5. Explain demography and population census

6. why are population studies conducted? Complete the Word web.

India in World Population

The population of India, at 1210.2 million, is almost equal to the combined population of U.S.A., Indonesia, Brazil, Pakistan, Bangladesh and Japan put together: the population of these six countries totals 1214.3 million!

The population of India has increased by more than 181 million during the decade 2001-2011. The absolute addition is slightly lower than the population of Brazil, the fifth most populous country in the world!

7. Which agency is leading the census operations in India?

8. How often is the census conducted in India?

9. what is density of population?
