

Determine the shape of the terrain represented by the given contours (Fig. 4.24) and complete Table 4.3 by checking the intervisibility between the places M, N, O and P.

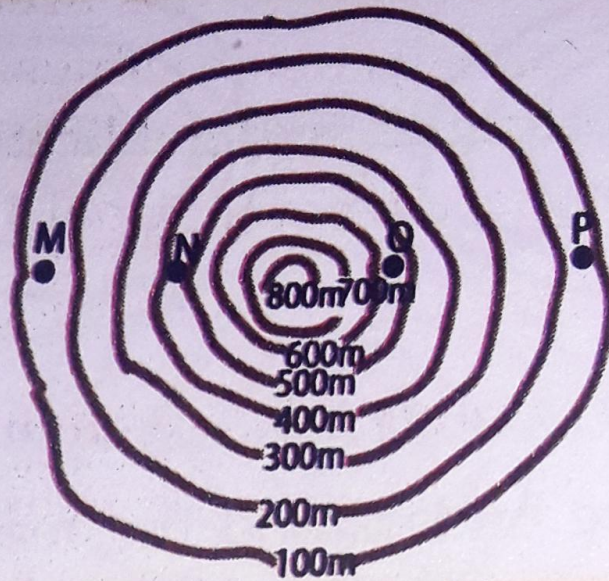

Figure 4.24

Places	Intervisible/ Not intervisible
• Between M and N	• Yes
• Between N and O	• No
• Between O and P	• Yes
• Between M and O	• No
• Between M and P	• No
• Between N and P	• No

Find answers to the following questions by reading the given topasheets (Fig 4.25).

- Which is the major river flowing through this area? Krishna
- In which direction does it flow? South west to north east
- On which bank of the river are the forests seen? North bank
- What is the name of the reserve forest in this area? Lingsugar
- How many springs are seen in this region? Locate them based on direction. Two springs ,
  1. North - east
  2. South - east
- Locate the open scrubs in this area
- Find out the location of the following using the 6-figure grid reference method.

• 476A  
944839

• 447  
016903

• the spring north of Parampur village
