BOARD QUESTION PAPER: MARCH 2020 Science and Technology Part - 1

| Hours | | | | | Total Mar | ·ks: 40 |
|---|---|--|---|--|--|---|
| The numbers to the right of the In case of MCQs (Q. No. 1(A)) For each MCQ, the correct alte an answer. For Eg: (i) (A), (ii) (B), (iii) (C | e questions in) only the fir ernative (A) | rst attempt , (B), (C), | will be eval (D) with su | b-question n | number is to be write | tten as |
| | | | Atomic ma | sses | unction of their | [5] |
| The vapour content in the air is(A) Absolute humidity(C) Dew point | s measured u | (B) | Relative hu | | | |
| For the normal human eye, the (A) 10 (B) 20 | near point is | s at (C) | cm. 25 | (D) | 30 | |
| The astronomical object closes(A)Mars(B)Venu | t to us is s | is o (C) | ur galaxy. Jupiter | (D) | Moon | |
| | | | | | | l. |
| Answer the following: Find the odd one out: Voltmeter, Ammeter, Thermon | neter, Galva | nometer. | | | | [5] |
| Complete the correlation: Alkene : C = C :: Alkyne: | | | | | | |
| State true or false: The frequency of AC is 50 Hz. | | | | | | |
| Match the Columns: | | | | | | |
| Column 'A' | | | | | | |
| The wavelength of red light | (b) | 700 n | m | | | |
| Name the first artificial satellit | | | | | | |
| Give scientific reasons (any t | | | .1 1 . | aca is consta | ant l | [4] |
| The weight of an object change Stars twinkle but we do not see Elements belonging to the sam | e the twinklin | ng of plan | ets. | | 4111. | |
| | All questions are compulsory.Use of a calculator is not allow The numbers to the right of the In case of MCQs (Q. No. 1(A)) For each MCQ, the correct alta an answer.For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelledWrite the correct alternative: According to Mendeleev's period (A) Atomic numbers (C) DensitiesThe vapour content in the air is (A) Absolute humidity (C) Dew pointFor the normal human eye, the (A) 10 (B) 20The astronomical object closes (A) Mars (B) Venu In the Wilfley table method, th (A) Magnetic (B) Frother Answer the following: Find the odd one out: Voltmeter, Ammeter, Thermore Complete the correlation: Alkene : C = C :: Alkyne: State true or false: The frequency of AC is 50 Hz. Match the Columns:Column 'A' The wavelength of red light | All questions are compulsory. Use of a calculator is not allowed. The numbers to the right of the questions in In case of MCQs (Q. No. 1(A)) only the fir For each MCQ, the correct alternative (A) an answer. For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelled diagrams shows Write the correct alternative: According to Mendeleev's periodic law, pr (A) Atomic numbers (C) Densities The vapour content in the air is measured up (A) Absolute humidity (C) Dew point For the normal human eye, the near point i (A) 10 (B) 20 The astronomical object closest to us is | All questions are compulsory. Use of a calculator is not allowed. The numbers to the right of the questions indicate full In case of MCQs (Q. No. 1(A)) only the first attempt For each MCQ, the correct alternative (A), (B), (C), an answer. For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelled diagrams should be dr Write the correct alternative: According to Mendeleev's periodic law, properties of (A) Atomic numbers (B) (C) Densities (D) The vapour content in the air is measured using a phy (A) Absolute humidity (B) (C) Dew point (D) For the normal human eye, the near point is at | All questions are compulsory. Use of a calculator is not allowed. The numbers to the right of the questions indicate full marks. In case of MCQs (Q. No. 1(A)) only the first attempt will be eval For each MCQ, the correct alternative (A), (B), (C), (D) with su an answer. For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelled diagrams should be drawn wherew Write the correct alternative: According to Mendeleev's periodic law, properties of elements a (A) Atomic numbers (B) Atomic ma (C) Densities (D) Boiling poi The vapour content in the air is measured using a physical quanti (A) Absolute humidity (B) Relative hu (C) Dew point (D) Humidity For the normal human eye, the near point is at cm. (A) 10 (B) 20 (C) 25 The astronomical object closest to us is is our galaxy. (A) Mars (B) Froth floatation (C) Hydraulic Answer the following: Find the odd one out: Voltmeter, Ammeter, Thermometer, Galvanometer. Complete the correlation: Alkene : C = C :: Alkyne: State true or false: The frequency of AC is 50 Hz. Match the Columns: (a) 600 nm (b) 700 | All questions are compulsory. Use of a calculator is not allowed. The numbers to the right of the questions indicate full marks. In case of MCQs (Q. No. 1(A)) only the first attempt will be evaluated and w For each MCQ, the correct alternative (A), (B), (C), (D) with sub-question r an answer. For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelled diagrams should be drawn wherever necessary Write the correct alternative: According to Mendeleev's periodic law, properties of elements are periodic f (A) Atomic numbers (B) Atomic masses (C) Densities (D) Boiling points The vapour content in the air is measured using a physical quantity called(A) Absolute humidity (B) Relative humidity (C) Dew point (D) Humidity For the normal human eye, the near point is at cm. (A) 10 (B) 20 (C) 25 (D) The astronomical object closest to us is is our galaxy. (A) Mars (B) Venus (C) Jupiter (D) In the Wilfley table method, the particles of gangue are separated by (D) Answer the following: . . Find the odd one out: Voltmeter, Ammeter, Thermometer, Galvanometer. Complete the correlation: Alkene : C = C :: Alkyne: . . | All questions are compulsory. Use of a calculator is not allowed. The numbers to the right of the questions indicate full marks. In case of MCQs (Q. No. 1(A)) only the first attempt will be evaluated and will be given credit. For each MCQ, the correct alternative (A), (B), (C), (D) with sub-question number is to be written answer. For Eg: (i) (A), (ii) (B), (iii) (C) Scientifically correct, labelled diagrams should be drawn wherever necessary. Write the correct alternative: According to Mendeleev's periodic law, properties of elements are periodic function of their (A) Atomic numbers (B) Atomic masses (C) Densities (D) Boiling points The vapour content in the air is measured using a physical quantity called (A) Absolute humidity (B) Relative humidity (C) Dew point (D) Humidity For the normal human eye, the near point is at cm. cm. (A) 10 (B) 20 (C) 25 (D) 30 The astronomical object closest to us is is our galaxy. (A) Mars (B) Froth floatation (C) Hydraulic (D) Gravitational Answer the following: Find the odd one out: Youtmeter, Ammeter, Thermometer, Galvanometer. (D) Gravitational Alsenei: C = C :: |

- **(В)** і. How much heat energy is necessary to raise the temperature of 5 kg of water from 20°C to 100°C? Observe the given figure of Fleming's Right Hand Rule and write the labels of A and B correctly.
- ii.

Motion of a conductor

B

iii. Observe the given graph and answer the following questions:

- a. Name the process represented in the figure.
- b. At what temperature does this process take place?
- iv. Complete the given chemical reaction:

 $CuSO_4$ (aq) + Fe (s) \rightarrow _____ + ___

Name the type of the reaction.

v. Write a short note on Alloying.

Q.3. Answer the following (any *five*):

- i. An element has its electronic configuration as 2, 8, 2. Now answer the following questions:
 - a. What is the atomic number of this element?
 - b. What is the group of this element?
 - c. To which period does this element belong?
- ii. Observe the given figure showing the orbit of a planet moving around the Sun and write the *three* laws related to it: $D \stackrel{C}{\longrightarrow} C$

- iii. Read the given passage and answer the following questions:
 - The home electrical connection consists of 'live', 'neutral' and 'earth' wires. The 'live' and the 'neutral' wires have potential difference of 220 V. The 'earth' is connected to ground. Due to a fault in the equipment or if the plastic coating on the 'live' and the 'neutral' wires gives a way the two wires come in contact with each other and a large current flows through it producing heat. If any inflammable material (such as wood, cloth, plastic, etc.) exists around that place it can catch fire. Therefore a fuse wire is used as a precautionary measure.
 - a. Name the two wires having potential difference of 220 V.
 - b. What is short circuit?
 - c. Write the function of a fuse.
- iv. Observe the given figure and answer the following questions:
 - a. Name the process represented by the figure.
 - b. State the two laws related to the process.

- v. What is an artificial satellite? Name any two types of artificial satellite and state their functions.
- vi. Answer the following questions:
 - a. Define Hydrocarbons.
 - b. Name the types of Hydrocarbons.
 - c. Name two carbon compounds used in day-to-day life.

vii. Observe the given figure of reactivity series of metals and answer the following questions:

Reactivity series of metals

- a. Name two metals which react with water.
- b. Name two moderately reactive metals.
- c. Name the most highly reactive metal and the most less reactive metal.
- viii. Complete the following table:

| Straight chain of Carbon compounds | Structural formula | Molecular formula | Name |
|---------------------------------------|--|----------------------|---------|
| С | H H - C - H H | CH_4 | Methane |
| C–C | | | Ethane |
| C–C–C | | C_3H_8 | |
| С-С-С-С | $\begin{array}{ccccccc} H & H & H & H \\ & & & \\ H - C - C - C - C - C - H \\ & & \\ H & H & H \end{array}$ | | |

Q.4. Answer any *one* of the following:

i.

- Draw a scientifically correct labelled diagram of a human eye and answer the questions based on it:
 - a. Name the type of lens in the human eye.
 - b. Name the screen at which the maximum amount of incident light is refracted?
 - c. State the nature of the image formed of the object on the screen inside the eye.
- ii. Observe the following picture and answer the following questions:
 - a. What is a rust?
 - b. Write the chemical formula of rust.
 - c. Write the reaction of oxidation of iron at anode.
 - d. Write the reaction of oxidation of iron at cathode.
 - e. What is corrosion?
