Question Numbers 35 to 44

Questions 35 - 37 : Read the following passage and answer the questions that follow by choosing the right answer from the options given along with each question.

The Galapagos Islands are home to many strange and wonderful animals. People are prohibited from living on the islands. No people live there - only animals do. The animals that live there are not like the animals you might see at home. In fact, they are unlike the animals you might see at any other place in the world.

One interesting animal that lives on the islands is the marine iguana. This is a special kind of iguana. Iguanas are lizards that can be over five feet long. Most iguanas cannot swim, but marine iguanas can. This makes them very unique.

Another unusual animal living on the islands is the giant tortoise. A tortoise is a turtle that lives only on land. Giant tortoises truly are giant. They weigh over 500 pounds! They can also live longer than people. Some have been known to live up to 150 years!
