**Read the following passage and answer the questions in your own words:** The earth is losing its forests. Trees cover about 30 percent of the earth's surface, but they are being destroyed at an alarming rate especially in the tropics. Timber harvesting is a major reason for the destruction of the forests. Trees are used for building houses, making furniture and providing pulp for paper products, such as newspapers and magazines. At least 40 hectares of rain forests are being felled every minute, mostly in order to extract the valuable timber. **Questions:** 

- a) What is the major reason for the destruction of forests?
- b) Mention any two uses of trees.
- c) What is it that happens every single minute?
- d) How much of the earth's surface is covered by trees?
