(OR)

What is water cycle? Explain the stages of it.

11. "During the last twenty or thirty years the tanks have been neglected and have been allowed to break down. Repairs were not done regularly. People also have gradually taken over the tank land for building houses or for agriculture. As a result, in almost every part of the state we see the sad state of dry tanks lying uncared for. Instead of caring for the

tanks, we have been digging deeper and deeper tube wells at great expense. But they only benefit a few, and in the long run, deplete water resources. On the other hand, tanks build resources for all."

Read the paragraph given above and comment on Decline of Tanks in Our Times.

(OR)

"Gina temples often became the nuclei of settlements which grew around them." Comment on it.

12. Observe the following table and answer the questions.
