 c) Only 20 out of 100 people are interested in maths.

2. **Read the following passage carefully and answer the questions.**

There is competition in every field in the present day world. unless there is competition. Students complete with one another to excel. They strive for a better grade. Businessmen try to compete with one another in order to gain. More profits. In sports and games also we see the same thing.

In competitions some can cope with and money other cannot. Those who can not, leave the competition. Dejected and decide not to participate again. Those who can, get the benefit and develop them selves.

They know what they are upto. They try to improve their skills by training them selves. They try to speach the top.

Now answer the following questions.

5 x 1 = 5

- a) How can one achieve progress ?
- b) Why do some people decide not to participate in the competitions again?
- c) People who can cope up with competitions try to ()
 a) develop themselves
 b) follow others.
 c) be inactive
- d) Students compete because they want to ()
 a) score more
 b) excel
 c) be equal to others

[Contd...3

- e) Choose the correct one among the three statements basing on the information given in the passage. ()
- a) Unless there is competitions there is no progress.
 - b) Every one can cope with competitions.
 - c) Even though some people are uninterested to participate they can participate in the competition.

3. **Read the following passage carefully.**

Sunitha was extremely happy when she got a nice little house in an area near her place of work. But her happiness was shortlived. Her maid servant began to bring home rumours or thefts and other sordid happenings in the area. Since Sunitha was alone in that house and stronger to the place. She decided to call her younger brother to come and stay with her. for a few days. But he was too tied down with office work to be able to spare. a few days of leave. So Sunitha became very nervous. She did not know what she would do if anything happened. She took special care to hide her house keys. Every night she hide them at a different place. She also had an alarm fixed. So that she could use it in case of an emergency.

Now arrange the following jumbled sentences in a sequential and meaningful order. 5 x 1 = 5

- a) Sunitha decided to call her brother to stay with her.
 - b) Her maid servant brought rumours of thefts.
 - c) She hid her house keys at different places every night.
 - d) She became very nervous.
 - e) Sunitha was happy but her happiness was short lived.
