2. Answer any **5** out of the given **7** questions.  $5 \times 1 = 5$

(i) \_\_\_\_\_ is the complete 3D movie making software application for all abilities and it allows to create excellent animation effects.

- (a) t@b ZS4 Video Editor
- (b) Mewa Film
- (c) MovieStorm
- (d) DVD Knife

- (ii) \_\_\_\_\_ is a free movie editing tool by Atomic Learning which is designed to give teachers, and students the ability to enter short titles and descriptions, complete with planned length and edited order.
- (iii) A file with an extension .jpeg indicates that it is a/an \_\_\_\_\_ file.
- (iv) \_\_\_\_\_ is a type of image format that does not consist of pixels, but objects such as curves, shades and characters.
- (v) Identify the type of operator in the following statement :  
a! = b
- (a) Arithmetic (b) Comparison  
(c) Logical (d) Assignment
- (vi) Consider the following code :  
`<param name = "controller" value = "False"/>`  
On execution of the above code, is the object controller displayed in the browser ?
- (vii) During web designing, in \_\_\_\_\_ mode, the Intellisense feature provides you a list of codes and attributes as a pop up.
- (a) Code view  
(b) Design view  
(b) GUI view

3. Answer any 6 out of the given 7 questions.

6×1=6

- (i) The name of actors is ideally displayed at the end. While making a video, are these added as copyright or credit ?
- (ii) \_\_\_\_\_ is the extension of a standard Macintosh image file.
- (a) pict (b) .docx  
(c) .xls (d) .wav
- (iii) \_\_\_\_\_ tag can be used only in Internet Explorer to include an audio file.
- (a) <BACKGROUND> (b) <BACKGROUND SOUND>  
(c) <BGSOUND> (d) <SOUND>
- (iv) \_\_\_\_\_ feature is used to transfer contents of your entire website to a remote computer.
- (v) If a variable is declared without assigning any value, what is its type (datatype) ?
- (a) Float (b) Undefined  
(c) Integer (d) String
- (vi) Write any one advantage of DWT.
- (vii) Fill in the blank :  
\_\_\_\_\_ is the process that affects the website visibility or ranking while displaying search results.

4. Answer any 5 out of the given 6 questions. 5×1=5

- (i) \_\_\_\_\_ is the area of Windows Movie Maker which enables to view individual clips or entire project before publishing it as movie ?
  - (a) Timeline
  - (b) Preview Monitor
  - (c) Storyboard
  - (d) Control Buttons
- (ii) \_\_\_\_\_ is a popular search engine.
  - (a) Safari
  - (b) Linux
  - (c) Android
  - (d) JavaScript
- (iii) GIF is a \_\_\_\_\_ image format. (lossless/lossy)
- (iv) What is the output of the following code snippet ?

```
document.write (Math.round (5.319))
```
- (v) What is the use of `isFinite()` in JavaScript ?
- (vi) Name any one desktop publishing program.

5. Answer any 5 out of the given 6 questions. 5×1=5

- (i) Which pane in Windows Movie Maker displays the folders containing clips ?
  - (a) Tasks
  - (b) Collections
  - (c) Contents
  - (d) Menu Bar
- (ii) The term “rich media” is synonymous for \_\_\_\_\_ multimedia.
- (iii) If A=10, B=2 C=4, then what will be the output of the following JavaScript statements ?

```
if ((A>B) && (B>C))  
    { document.write("Hi")  
    }  
else  
    {  
    document.write("Bye")  
    }
```
- (iv) Name any one video streaming application that allows video embedment option.
- (v) Which method in JavaScript allows to join all elements of an array into a string ?
- (vi) Name any one Page Transition effect that can be used to apply on web pages.

6. Answer any 5 out of the given 6 questions.

5×1=5

- (i) How can you select non-consecutive clips in Windows Movie Maker/Video Editor ?
- (a) Press and hold Ctrl key while selecting clips
  - (b) Press and hold Shift key while selecting clips
  - (c) Press and hold Alt key while selecting clips
  - (d) Press and hold Ctrl+Shift key while selecting clips

Fill in the blank.

(ii) A \_\_\_\_\_ image format is composed of a field of pixels, each characterised by a colour.

- (a) Vector
- (b) Raster
- (c) Coloured
- (d) Black and White

(iii) Consider the following declaration in JavaScript :

```
varTxt= "Life is Beautiful"
```

Write a statement that will display the string in uppercase.
