Define Gram Panchayat and functions of Gram Panchayat.

SECTION- E- (Case Based Questions (1x4=4)

Read this passage and answer the questions given below

India is a country of vast geographical expanse. In the north, it is bound by the lofty Himalayas. The Arabian Sea in the west, the Bay of Bengal in the east and the Indian Ocean in the south, wash the shores of the Indian peninsula. India has an area of about 3.28 million sq. km. The north-south extent from Kashmir to Kanyakumari is about 3,200 km. And the east-west extent from Arunachal Pradesh to Kuchchh is about 2,900 km. The lofty mountains, the Great Indian Desert, the Northern Plains, the uneven plateau surface and the coasts and islands present a diversity of landforms. There is a great variety in the climate, vegetation, wildlife as well as in the language and culture. In this diversity, we find unity that is reflected in traditions that bind us as one nation. India has a population of more than one hundred twenty crores since the year 2011. It is the second most populous country of the world after China.

Que.22-. Which bodies of water wash the shores of the Indian peninsula?

Que.23- What is the area of India in square kilometers?

Que.24- What is the north-south extent of India from Kashmir to Kanyakumari?
