Trees not only supply us with many of the comeniences of our daily life, they do much more than that. They support the life of living things. They help to replace the oxygen, in the air constantly being used up and turned into carbondioxide when animals breathe and things burn. The green leaves of trees absorb the cabondioxide from the air and with the help of sunlight oxygen is released into the atmosphere. The green cells of leaves are wonderful little laboratories where all the starch in the world is produced. Thus trees are great friends of man.

44) **Identify and correct the errors in the following sentences:**

- This is the boy whom won the race.
