

105 ques of march 2011 FMGE exam.

Question :

1) nerve supply of tonsill

2) A/E, blood supply of tonsill?

3) drug of choice for bacterial vaginosis?

4) the age at which the child reach 100 cm height.

5) brusa involved in house maid knee?

6) which(single most) gestation period is best for usg scan

7) most radio sensitive tumor?

8) most radiosentive tissue?

9) side effect of bleomycin?

10) ligmentam teres of liver is a remnant of ?

11) umbilical vein carries blood from to?

12) tumour lysis syndroma caused by ?

13) shoulder joint most commonly dislocates ?

14) mite is a vector for the disease.

15) allopurinol is a inhibitor.

16) population of phc in tribal areas....?

17)" Re-orientation of medical education " scheme is a part of which committee?

18) prophylaxis of rheumatic carditis?

19) antifungal drug which have antibacterial action too?

20) in cardiogenic shock which i.v fluid is CI?

21) severe hemorrhage, first 24 hours i.v fluid of choice is?

22) congenital syphilis is diagnosed by?

23) nalgonda technique - defluoridation of water by addition of &

24) d.o.c for methotrexate toxicity?

25) malonylic aciduria is due to the deficiency of?

26) onchronosis is caused by?

27) catecholamines are produced from which amino acid?

28) taurine is produced from which amino acid?

29) cholesterol is not a precursor for? a. bile acid b. bile pigment c. vit D d. other steroid hormones

- 30) statins act at which enzyme?
- 31) sodium fluoride inhibits which enzyme in glycolysis?
- 32) primary bile acid is?
- 33) which of the following enzyme cause decreased intestinal motility? a.cck b.serotonin c.glucagon d.secretin
- 34) posterior staphyloma is seen in? ans degenerative myopia.
- 35) hyphema means?
- 36) starvation & diabetes, acidosis is due to?
- 37) mid day meals program - quantity of rice/wheat?
- 38) sympathetic ophthalmitis means?
- 39) black floaters seen in?
- 40) cancer not associated with hiv? a. nhl b. kaposi sarcoma c. cervical carcinoma d.....
- 41) maximum accommodation leads to? a)hypermetropia b) myopia c) pseudohypermetropia d) presbyopia
- 42) sodium loss cause
- 43) baclofen is used for
- 44) drug CI in angle closure glaucoma?
- 45) why dobutamine is preferred over dopamine in cardiogenic shock?
- 46) sulfasalazine used in ? ans crohns dzs.
- 47) melasma seen in ? ans.face
- 48) drug which dont have gynecomastia as a s/e is a, amiodarone b. spiranolactone c. cimetidine d.
- 49) d.o.c of absence seizure?
- 50) most common type of seizure in infants/childrens?
- 51) descending tract carries A/E? a. vibration b. joint sensation c. heat d.
- 52) decreased testosterone level, gynecomastia, increased prolactin level? ---- pituitary adenoma
- 53) dementia characterised by all are except? a.forgottenness b.self deterioration c.
- 54) disadvantage of depot progestin?
- 55) smallest diameter of the mid pelvis?
- 56) m/c clinical presentation of depression is? a.suicide b.sleeping disturbance c.
- 57) fibrillation of skeletal muscles seen in?
- 58) thrombotic thrombocytopenic purpura seen in A/E?

- 59) hemolytic anemia C/F all are except? A. increased u.con.billirubin b.
- 60) thyrotoxicosis is managed by A/E? a. propyithiouracil b.iodine c. propanolol d....
- 61) renal angle is defined as?
- 62) micro organism which has sterol in the cell wall?
- 63) micro organism which cause pyogenic osteomyelitis?
- 64) bone which dont have medullary cavity? a. clavicle b.fibulla c..... d....
- 65) p.c.o.d C/F all are except?
- 66) abdominoperinial surgery, 5th p.o.d, swelling in the lower limb, diagnosis? a.dvt
- 67) time of ovulation is studied by A/E?
- 68) the tumour which metastasis to the brain least likely? a.brest carcinoma b.prostate carcinoma c.... d....
- 69) young girl, presenting with primary dysmenorrhagia... m/m?
- 70) laproscopy is contraindicated in? a.general peritonitis b.
- 71) hysteroscopy is usefull in all the following except? a. tubal cannulisation b.
- 72) All the following inflamatory mediators cause fever except? a. il-1 b.tnf alfha c.
- 73) which radio isotope is used for ablashion of thyroid tissues?
- 74) obesity index in percentile?
- 75) abt case fatality rate true is?
- 76) "phenol coefficient" means?
- 77) prevalance of iodine deficiency & evaluation of iodinisation programs are best done by neonatal hypothyroidism.
- 78) primordial level of prevention is a. life style modification
- 79) common cause of hypercapnic respiratory failure? a. copd b.asthma c.interstitial disease d....
- 80) TB multi drug resistance is d/t? a.mutation b.
- 81) not a component of RCH program? a.control And prevention of rti & sti
- 82) colour coding (triage) black colour indicates?
- 83) question regarding comparision of cow milk and breast milk....
- 84) A/E c/f retinoblastoma?
- 85) 40 yrs female pt, u/l proptosis diagnosis? a. thyro occulo pathy.
- 86) inability to close the eyelid? lagophthalmos.
- 87) atropine poisoning, C/F A/E?
- 88) Antidode for paracetamol poisoning?

89) mushroom poisoning affects? a.nerve b.heart c.brain d.

90) tumour marker for endodermal sinus tumour is?

91) marker for neural tube defect?

92) plasma half life of albumin?

93) "golf hole" in a bladder is?

94) massive splenomegaly(3000 gms) seen in?

95) kussmaul sign is not seen in?

96) panacinar emphysema is a/w? A.alpha 1 trypsin deficiency.

97) hemoptysis seen in? a)tb b)pulmonary embolism

[snip]) which of the following indicates acute hepatitis B? a. anti hbs b.antihbe c. HBe antigen d....

99) the dzs, primary biliary sclerososis has which antibody? Ans ; antimitochondrial anti body.

100) celiac disease has which antibody? Ans anti gliadin antibodies

101) undermined edge of an ulcer is caused by?

102)how many wks baby is fed with breast milk

103) breast milk can b stored in frezer in _____ hrs.

104)hemorrhage from SAH is _____

105) the c'teristic pathological feature of h'rhage.
