

FMGE MCI September 2011 ::::

1. Implantation Occurs - 6 days , 7
2. Anti Dnaantiboides – SLE
3. Wound kerpeticus – streptococcus
4. Antibiotic not safe in preg – Macrolide
5. DOC for htn in pregnancy – methyl dopa
6. Yellow fever – aedes
7. Air travel – thrombosis
8. Before starting Patient on heparin test – Bleeding time (wrong)
9. Best anticoagulant - Low molecular weight heparin
10. Drug that works without changing acid profile of stomach – scarfate
11. Weger's treatment - steroids
12. Asherman's treatment - hormones
13. Hypersegmented neutrophils – megaloblastic anemia
14. Renal artery thrombosis caused by all except – trauma, sickle cell, nephrotic syndrome
15. Dx for DIC – d dimer assay
16. Azygous drains into - left cephalic
17. Radioisotope in teletherapy
18. Endometriosis causes – ab pain, menorrhagia
19. Neonatal jaundice caused by - Misoprostol,
20. Abdominal pain, diarrhea , myelosuppression caused by – lead , Arsenic (my answer)
21. Strictures in ligation strangulation example of – pressure
22. Reason for subarachnoid hemorrhage – meningeal artery rupture
23. MC hypospadias – penile
24. Gold std for infertility – trans vaginal usg
25. Vitamin to correct neuro symptoms – Thiamine
26. Polycythemia vera all except – increased erythropoietin
27. Aortic valves close at -
28. Coronary blood flow is max during - isometric relaxation phase
29. Investigative choice for pericarditis
30. Alpha particle has – one proton, two neutrons, / two protons, one neutron
31. General public gets most radiation from – computers, dx radiotherapy
32. Non vitamin k dependent clotting factor – VIII
33. All cause osteoporosis except – etridonate (some bisphosphonate)
34. Multiple myeloma – plasma cell count > 10%
35. Protective from UV – melanocytes
36. Calorie/protein requirements
37. All are grassroot workers except – health assistant / traditional birth assistants
38. Health assistant should visit – once a week
39. Rheumatoid arthiritis all except – symmetric arthritis
40. E

continue

40. Erythema multiforme –
41. Diabetic with cellulitis has hypotensive shock , example of – septic shock
42. Vertigo – subjective sense of imbalance
43. Testosterone secretion – leydig cells
44. Test of choice for cushings – 24 hour dexamethasone suppression test
45. Drug causing Cardiovascular effects – ketamine
46. Narcotic associated with hallucinations – morphine ?
47. Problem in polio is with – anterior horn cells/ spinothalamic tract
48. Temporal lobe associated with all except – audition, emotion (my ans),
49. Test for syphilis all exception – VDRL, KPAH, ...
50. Scalatypmani is supplied by facial nerve
51. Complete apnea will result from cutting off of – medulla pons / medulla ?
52. Vitreous floaters seen in
53. All are supplied by CN III except – superior oblique

54. All associate with hornersexcept – proptosis
55. Scapula is at T6
56. Tb drug not hepatotoxic – pyrazinamide ?
57. Candida is – yeast like fungus
58. Chagas disease caused by – T burcii
59. Antibiotic associated colitis – C Difficile
60. Burn patients die in 24 hours because of – hypovolemia?
61. Fluid replacement in burns – ringers ?
62. Pathognomic of hiv – oral leukoplakia
63. Hiv cells – CD4
64. Sudden onset of dyspnea – hemartoma (my ans), pneumothorax
65. E Coli causes – diarrhea, septicemia, uti, - all of the above
66. Chinese letter arrangement – Diphtheria
67. Stain for mycoplasma
68. Beta blocker can do all except – precipitate heart failure
69. OCP absolutely contra in – Active liver disease / 10 cigs day
70. Not a Live vaccine – polio – correct hepatitis
71. MC of breast bleeding – papilloma
72. Japanese encephalitis amplifier host is – mosquito
73. Amino acid involved in urea production – glutamate
74. Anaphylactic shock – nor epi
75. Preload increased in all except –
76. First response to haemorrhage – tachycardia
77. CA 19-9 : Breast Cancer
78. Best method to prevent infections – hand washing
79. Hyaline – RDS
80. Cortisol just before birth leads to

continue

81. Perinatal mortality rate – deaths per 1000 – pregnancies ?
82. Group of experts talking – panel discussion
83. Pollicization – longus ?
84. Not seen with cocaine – agitation ?
85. Alkalyising urine useful in methyl alcohol ?
86. Phenobarbital ?
87. Best way to diagnose DAI – MRI
88. Displacement of aorta in all except –
89. Increased esophageal cancer with all except – hiatus hernia
90. Tentative cuts in – suicidal attempt
91. Arterial sheaths seen in – spleen ?
92. Cervical neoplasm – punch biopsy
93. Trisomy 21 is downs
94. Purulent nasal discharge in a child – acute sinusitis ?
95. Haemodialysis indicated in – (correct ans:methyl alcohol)
96. Serum sickness
97. Problem village is – with water supply > 1.6 km
98. Proliferative diabetes – neovascularization
99. Epinephrine to Norepinephrine – Transalodase ?
100. Diabetic lipogenesis lacks – AcetylCoa ?
101. Interstitial lung – CT contrast ?
102. Clitoris – genital tubercle (not my ans)
103. Purulent discharge – gonorrhoea ?
104. Measles infective for days – 21
105. Most common tumor location – frontal
106. Vaginal fornix related to -
107. Most common fistula – vagino – vesical ?
108. Scapula ends at T6 ?
109. Lateral elbow pain - Tennis elbow ?

110. MC complication with suction MTP – remaining contents ?
111. Endometrium causes all except –
112. Resuscitation – 72 , 72+ ?
113. Asherman treatment – hormones ?
114. Wegner Tx – steroids ?
115. Juxtaglomerular cells all except – glomerulus ?
116. Aldosterone acts on – PCT wrong
117. SPinorolactone not used in – chf, k sparing diuretic ,htn – htn ?
118. Vitamin A doesage for xerophthalmia – 30 mg two doses ?
119. Haemeorrhage – venous cantula ?
120. Disc ration – 0.3, 0.6, 0.1 - 0.6 ?
121. Pummel vision syndrome –
122. Mysthania gravis symptoms – all ocular nerves palsy and general weakness ? - Endrophonium test
123. Puerprrium ovulation in non lactating mother – 2 weeks ?
124. Urban center > 10 L akh ?
125. Retinal detachment
126. Drug used in status epilepticus – diazepam
127. Problem with mania – over activity ?
128. Delusion disorder of – FOT,COT – COT ?
129. Glassgow scale for moderate head injury – 10 – 13
130. Glycemic index ?
131. Alpha particle
