c) Only I and II follow
d) Only I and IV follow
e) None of these

Q.20. Statements: Some towers are lanes. Some lanes are roads. Some roads are rivers. Some rivers are jungles
Conclusions: I. Some jungles are roads. **II.** Some roads are lanes.**III.** Some jungles are towers. **IV.** No jungle is road.
a) Only I follows
b) Only II follows
c) Only either I or IV follows
d) Only IV follows
e) Only either I or IV and II follow

Study the following arrangement carefully and answer the questions given below —.
B ↑A M 3 # D 2 E K 9 $ F @ N I T 4 1 U W © H 8 % V J 5 Y 6 * 7 R
Q.21. Howmany such symbols are there in the above arrangement each of which is either immediately preceded by a letter or immediately followed by a letter but not both?
a)None
b)One
c)Two
d) Three
e)More than three

Q.22. If all the symbols in the above arrangement are dropped which of the following will be the twelfth from the left end?

a) 9
b) U
c) I
d) 1
e) None of these

Q.23. Howmany such numbers are there in the above arrangement each of which is immediately followed by a consonant but not immediately preceded by a letter?
a)None
b)One
c)Two
d) Three
e)More than three

Q.24. Four of the following five are alike in a certainwaybased on their positions in the above arrangement and so form a group. Which is the one that does not belong to that group?
a) DK3
b) 4NU
c) 8J©
d) F K N
e) 5*%

Q.25. Which of the following is the seventh to the right of the eighteenth from the right end of the above arrangement?
a) H
b) 9
c)%
d) E
e) None of these

In each question below is given a group of digits/symbols followed by four combinations of lettersnumbered a), b), c) and d). You have to find out which of the combination correctly represents the group of digits/symbols based on the following coding system and the conditions those follow. If none of the combinations correctly represents the group of letters/digits, give e) i.e. 'None of these' as the answer.
Digit /Symbol: 1 # $ 9 8 6 % @ © 7 2 4 * 3 5
Letter Code: B D E N I V R G H K T J P F A
Conditions:
(i) If both the first and the last elements in the group are odd digits both are to be coded as 'Y'.
(ii) If the first element is a symbol and the last element is an even digit, the codes for the first and the last elements are to be interchanged.
(iii) If the first element is an odd digit and the last element is a symbol, both are to be coded as 'Z'.
(iv) If the first element is an even digit and the last element is an odd digit, both are to be coded as the code for the odd digit.
Q.26. 3$95#1

TEST - IV
ENGLISHLANGUAGE
Read the following passage carefully and answer the questions given below it. Certain words are printed in bold to help you to locate them while answering some of the questions.

There is absolutely no point in complaining that over the years, there has been pressure forincreased productivity and higher earnings for workers in industry. There are several ways of increasing employees' earnings. Employee earnings can be increased by raising the selling price of the firm's products and services, reducing profits or costs of raw materials, or augmenting labour productivity. However, increasing employee earnings bymeans other than increased labour productivity **jeopardizes** the firm's competitive strength in themarket. Higher prices usually mean fewer customers, reduced profitmeans less capital investment, and low-costmaterials mean poor product quality. But, increasing labour productivity by enhancing skills and motivation creates an almost unlimited resource. The development of economic resources, human as well as nonhuman, is the product of human effort, and the quality of human effort in large part depends on human motivation.

Enthusing employees with workaholic spirit through traditional authority and financial incentiveshas become increasinglydifficult as employees become economically secure and their dependency on any one particular organization decreases. According to expectancy theorists, the motivation to work increases when an employee feels his performance is an instrument for obtaining desired rewards. Nevertheless, in many organizations today employees are entitled to organizational rewards just by being employed. Unions, governmental regulations, and the nature of the job itself in some cases preventmanagement from relating financial rewards to performance. People may be attracted to join and remain in organizations to receive organizational rewards, but being motivated to join an organization is not the same as being motivated to exert effort in an organization. The challenge tomanagement is to find and administer alternative forms of incentiveswhich will **induce** employees to improve work performance. Such alternative forms of reinforcement will require increased understanding ofmotivational theories and programs.
